Dear Totally Organics customer

Starting with April 2014 Totally Organics is going to change its name into TOP's Parrot Food.

Because we are in the middle of this change and just started to print new labels, you will have products with both labels in your order.

The ingredients are the same high quality, organically and ecologically grown ones we use since 10 years.

Two of our suppliers gave up their certification and are now growing ecologically, sustainable (Protect, conserve and enhance soil, water, wildlife habitat and biodiversity").

Working with them since many years and knowing their ethics, we trust them and like to keep using their products. Therefore we will start using two ecologically grown products from the end of April 2014 in our pellets. And that is one reason why we have to change our name and labels.

The Seeds are still all human grade organic.

Thank you for your understanding

Gudrun Maybaum
